# What we are going to do

We are organizing in the years 2023, 2024 and 2025 the Contests **VALUE<sup>for</sup>** to generate also artistic comparison between the cultures and territories of our 26 countries.

The **Artists of the winning works** in each competition will be invited to Taranto to **create large works of art** (painting, mosaic, fresco, etc.) in the City's new sports facilities.

# A Great Game of Art 2026

In 2026 among all the works submitted to the different contests, **we will choose the 26 best works, 1 for each Country**, and we will award citizen owners and artists of the 3 most beautiful works with gold, silver and bronze medals, just like athletes.

Nartist<sup>®</sup> is a project of VALUE group s.r.l. benefit company
